In the group as originally taken, in the upper right hand corner was the picture of ROBERT MINOR who at the time of the Negro Labor Congress was the Director of Negro Affairs of the Communist Party of America. The picture of Robert Minor in the picture furnished this office by the Director, was blotted out which in agent's opinion was for the purpose of making it appear that the Communist movement among the negroes in this country was solely of negro origin and was not directed by white members of the Communist Party. Since this picture was taken, ROBERT MINOR has been removed as Director of Negro activities and JOHN BALLAM has taken his place.

At this point, attention is called to the Director's letter dated

photograph as the one in the Director's letter in question and has affixed the names of all members in the group. Attention to this is solely called for the purpose that in case the report and attached pictures have been lost, that this picture may be resorted to for the information desired. The picture has also been shown to informants of this office who have verified the correctness of the identification as given on these photographs.

The desired information having been obtained, case is

CLOSED BY REFERENCE TO OTHER DEPARTMENT.

(Mount Clipping in Space Below)

The National Association for the Advancement of Colored People has had its three-day meeting and rally in Birmingham, and presumably the attendees are now free to return to their demonstrations, riots and other planned turmoil.

The Congressional Record of July 29, 1963, contains information from the files of the House Committee on Un-American Activities relating to 59 of the officers, members of the board of directors, legal, health and other committees of the NAACP, as well as to certain members of the organization's executive staff. Between them, these individuals have been associated with more than 450 Communist fronts-cited as such by our government. Executive Secretary Rcy Wilkins, who informed his audience that the South was not blameless for the recent riots in Los Angeles. has seven citations.

Among others, Wilkins has belonged to the American League for Peace and Democracy, International Judicial Association, and the Medical Bureau and North American Committee to Aid Spanish Democracy. He was a sponsor of the Conference on Pan American Democracy and a packer of the International Workers Order.

Wilkins read a telegram from Dr. Ralph Bunche, whose duties at the United Nations prevented him from attending. Dr. Bunche, a member of the NAACP board of directors, was deeply involved in the mechinations of the Institute of Pacific Relations in the 1940's. The Institute was considered by the American Communist Party and by Soviet officials as fan instrument of Communist policy, propaganda and military intelligence." Wilkins did not inform his audience of this. His audience would know about the IPR after consulting the "Guide to Subversive Organizations and Publications" of the Kouse Committee on Un-American Activities.

Meaning Johnson, the courageous Negro author of "Color, Communism and Common Sense," understood the civil rights fraud, but he is not alive to tell us about it now. The was a member of the Communist Party for 10 years, having been, as he 57.00 b A well b Sine American Negro Labor Congress one for the many firont organizations recommon the communists to trap the naive, unwary, unsuspecting and idealistic Negro."
